Ask ChatGPT To Create A Review Checklist

Before using an answer, create a checklist to review it.

Best way to use it:

â€ Ask for domain-specific checks.

â€ Verify facts manually.

â€ Use it as a QA step.

Copy-ready prompt:

Create a review checklist for this output before I use it: [output]. Include factual, legal, brand, security, and operational checks where relevant.

Quality check:

â€ Checklist fits output type.

â€ Manual verification is clear.

â€ Risky areas are included.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
