Ask ChatGPT To Interview You First

Useful when your request is vague and you need ChatGPT to gather missing requirements.

Best way to use it:

â€¢ Tell ChatGPT not to solve yet.

â€¢ Ask for the minimum set of clarifying questions.

â€¢ Answer those questions, then request the final output.

Copy-ready prompt:

Before solving this, ask me up to 7 questions that would materially improve the result. Do not produce the final answer until I respond.

Quality check:

â€¢ Questions are specific.

â€¢ Questions affect the final result.

â€¢ The final answer uses your answers.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
