Ask For Three Options Before Choosing

Multiple options prevent you from accepting the first mediocre answer.

Best way to use it:

â€ Ask for conservative, balanced, and bold options.

â€ Compare risks.

â€ Choose one to refine.

Copy-ready prompt:

Give me three options for [decision]: conservative, balanced, and bold. Compare tradeoffs, risk, cost, and next step.

Quality check:

â€ Options are meaningfully different.

â€ Tradeoffs are clear.

â€ Next step is actionable.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
