Improve Image Prompts

Image generation works better with subject, setting, style, composition, and constraints.

Best way to use it:

â€¢ Define subject and purpose.

â€¢ Add composition and brand constraints.

â€¢ Ask for variants.

Copy-ready prompt:

Create an image prompt for [purpose]. Include subject, setting, composition, lighting, style, color constraints, and what to avoid.

Quality check:

â€¢ Prompt is visual.

â€¢ Constraints are clear.

â€¢ Avoids vague style words.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
