Turn Customer Feedback Into Themes

Cluster messy feedback into patterns and opportunities.

Best way to use it:

â€¢ Paste feedback.

â€¢ Ask for themes, frequency, sentiment, and examples.

â€¢ Request product actions.

Copy-ready prompt:

Analyze this customer feedback. Cluster themes, include representative quotes, sentiment, severity, and product recommendations: [feedback].

Quality check:

â€¢ Themes are distinct.

â€¢ Examples support claims.

â€¢ Recommendations are tied to feedback.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
