Use Canvas For Long Writing

Canvas-style workflows are better for drafts that need editing, revision, and structure.

Best way to use it:

â€¢ Use a document-style workspace for long pieces.

â€¢ Ask for targeted edits.

â€¢ Revise section by section.

Copy-ready prompt:

Create a structured draft for [document]. Then help me revise section by section for clarity, tone, and completeness.

Quality check:

â€¢ The document has clear sections.

â€¢ Edits are targeted.

â€¢ You keep final control.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
