Use ChatGPT For Better Questions

Sometimes the best output is a better question.

Best way to use it:

â€¢ State your objective.

â€¢ Ask for better question variants.

â€¢ Choose one and research it.

Copy-ready prompt:

My objective is [objective]. Rewrite my question into 10 better research questions, grouped by strategy, risk, implementation, and decision-making.

Quality check:

â€¢ Questions are sharper.

â€¢ Groups are useful.

â€¢ Questions lead to decisions.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
