#### Use Examples To Lock The Style

Examples beat abstract style words when you want a specific tone.

Best way to use it:

â€¢ Paste one good example and one bad example.

â€¢ Explain what to copy and what to avoid.

â€¢ Ask ChatGPT to produce a new version in that pattern.

Copy-ready prompt:

Here is the style I want: [good example]. Avoid this: [bad example]. Write a new version for [topic] using the good structure but original wording.

Quality check:

â€¢ The output does not copy your example verbatim.

â€¢ The tone matches the target.

â€¢ The structure is recognizable.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
