Write Better Prompts With Role, Goal, Context, Output

A simple structure that makes ChatGPT responses clearer and easier to evaluate.

Best way to use it:

- â€¢ Assign a role that matches the work.
- â€¢ Describe the goal in one sentence.
- â€¢ Paste the necessary context instead of expecting guessing.
- â€¢ Specify the exact output format.

Copy-ready prompt:

Act as a senior [role]. My goal is [goal]. Here is the context: [context]. Return [format].
Before answering, list any assumptions you need to make.

Quality check:

- â€¢ The answer follows the requested format.
- â€¢ Assumptions are visible.
- â€¢ No major context is invented.

DropTicks note:

Use ChatGPT like a workstation, not a magic answer box. Give it the role, goal, input material, constraints, expected output format, and review criteria. The stronger your workflow, the better the result.
