Claude Skill: AI Tool Stack Advisor

Claude Skill

Skill for recommending tool stacks for content, coding, research, automation, design, video, and business workflows.

Builder notes

Purpose

â€¢ Skill for recommending tool stacks for content, coding, research, automation, design, video, and business workflows.

Recommended SKILL.md contents

â€¢ Trigger description explaining when Claude should use the skill.

â€¢ Step-by-step procedure for the workflow.

â€¢ Required checks before edits or publication.

â€¢ Verification command or manual acceptance checklist.

â€¢ Links to supporting examples, scripts, or templates when the workflow needs them.

Why use this

â€¢ Use this skill because it helps people make sense of fast-moving AI tool recommendations from social media.

â€¢ Skills load their full instructions only when used, which keeps normal session context smaller.

â€¢ A reusable 'SKILL.md' gives teams a versioned workflow instead of repeated ad hoc prompts.

Who can use this

â€¢ founders, creators, consultants, operators, and AI-curious professionals.

â€¢ Teams standardizing AI-assisted delivery across multiple repositories.

â€¢ Builders who want Claude to apply consistent procedures without repasting instructions.

Prerequisites

â€¢ workflow goal, budget, technical level, privacy needs, current tools, and output expectations.

â€¢ A skill directory such as '.claude/skills//SKILL.md' or '~/claude/skills//SKILL.md'.

â€¢ A concise frontmatter description so Claude can decide when to load the skill.

System requirements

â€¢ Claude skill support and current source links for any tool availability or pricing claim.

â€ Claude Code skill support and access to the files or commands the workflow needs.
â€ Any external APIs, MCP servers, credentials, or local runtimes required by the specific workflow.
