Claude Skill: Podcast Clip Finder

Claude Skill

Skill for finding social-worthy moments from transcripts and turning them into clip titles, captions, and edit notes.

Builder notes

Purpose

â€¢ Skill for finding social-worthy moments from transcripts and turning them into clip titles, captions, and edit notes.

Recommended SKILL.md contents

- â€¢ Trigger description explaining when Claude should use the skill.
- â€¢ Step-by-step procedure for the workflow.
- â€¢ Required checks before edits or publication.
- â€¢ Verification command or manual acceptance checklist.
- â€¢ Links to supporting examples, scripts, or templates when the workflow needs them.

Why use this

- â€¢ Use this skill because it turns long audio/video conversations into reusable distribution assets.
- â€¢ Skills load their full instructions only when used, which keeps normal session context smaller.
- â€¢ A reusable 'SKILL.md' gives teams a versioned workflow instead of repeated ad hoc prompts.

Who can use this

- â€¢ podcasters, creators, editors, content teams, and educators.
- â€¢ Teams standardizing AI-assisted delivery across multiple repositories.
- â€¢ Builders who want Claude to apply consistent procedures without repasting instructions.

Prerequisites

- â€¢ transcript, target audience, clip duration, tone, and platform.
- â€¢ A skill directory such as '.claude/skills//SKILL.md' or '~/claude/skills//SKILL.md'.
- â€¢ A concise frontmatter description so Claude can decide when to load the skill.

System requirements

- â€¢ Claude skill support, transcript file, and video/audio editing workflow for clipping.
- â€¢ Claude Code skill support and access to the files or commands the workflow needs.
- â€¢ Any external APIs, MCP servers, credentials, or local runtimes required by the specific

workflow.
