Claude Skill: Prompt Makeover

Claude Skill

Skill for taking weak prompts and rewriting them with role, context, constraints, examples, and output checks.

Builder notes

Purpose

â€¢ Skill for taking weak prompts and rewriting them with role, context, constraints, examples, and output checks.

Recommended SKILL.md contents

â€¢ Trigger description explaining when Claude should use the skill.

â€¢ Step-by-step procedure for the workflow.

â€¢ Required checks before edits or publication.

â€¢ Verification command or manual acceptance checklist.

â€¢ Links to supporting examples, scripts, or templates when the workflow needs them.

Why use this

â€¢ Use this skill because it popular social workflow that teaches people how to get better AI results quickly.

â€¢ Skills load their full instructions only when used, which keeps normal session context smaller.

â€¢ A reusable 'SKILL.md' gives teams a versioned workflow instead of repeated ad hoc prompts.

Who can use this

â€¢ ChatGPT users, creators, operators, founders, and AI trainers.

â€¢ Teams standardizing AI-assisted delivery across multiple repositories.

â€¢ Builders who want Claude to apply consistent procedures without repasting instructions.

Prerequisites

â€¢ original prompt, desired output, audience, constraints, and examples of good/bad answers.

â€¢ A skill directory such as '.claude/skills//SKILL.md' or '~/claude/skills//SKILL.md'.

â€¢ A concise frontmatter description so Claude can decide when to load the skill.

System requirements

â€¢ Claude skill support and a library of preferred prompt patterns or company guidelines.

â€¢ Claude Code skill support and access to the files or commands the workflow needs.

â€ Any external APIs, MCP servers, credentials, or local runtimes required by the specific workflow.
