Claude Skill: Video Shot List Planner

Claude Skill

Skill for converting a video script into shot list, b-roll ideas, visual beats, captions, and production checklist.

Builder notes

Purpose

â€¢ Skill for converting a video script into shot list, b-roll ideas, visual beats, captions, and production checklist.

Recommended SKILL.md contents

â€¢ Trigger description explaining when Claude should use the skill.

â€¢ Step-by-step procedure for the workflow.

â€¢ Required checks before edits or publication.

â€¢ Verification command or manual acceptance checklist.

â€¢ Links to supporting examples, scripts, or templates when the workflow needs them.

Why use this

â€¢ Use this skill because it bridges the gap between script and actual video production.

â€¢ Skills load their full instructions only when used, which keeps normal session context smaller.

â€¢ A reusable 'SKILL.md' gives teams a versioned workflow instead of repeated ad hoc prompts.

Who can use this

â€¢ content teams, solo creators, product marketers, YouTubers, and AI video operators.

â€¢ Teams standardizing AI-assisted delivery across multiple repositories.

â€¢ Builders who want Claude to apply consistent procedures without repasting instructions.

Prerequisites

â€¢ script or outline, target duration, filming constraints, brand style, and distribution platform.

â€¢ A skill directory such as '.claude/skills//SKILL.md' or '~/claude/skills//SKILL.md'.

â€¢ A concise frontmatter description so Claude can decide when to load the skill.

System requirements

â€¢ Claude skill support, production notes, camera/screen-recording assets when needed, and editing/rendering workflow.

â€¢ Claude Code skill support and access to the files or commands the workflow needs.

â€ Any external APIs, MCP servers, credentials, or local runtimes required by the specific workflow.
